

COURSE DESCRIPTION

This course introduces students to the basic Chinese terminology and characters useful in understanding traditional Asian medicine, both spoken and written, with an emphasis on pronunciation, grammar, and proper stroke techniques. Students are taught to recognize spoken and written vocabulary for the organ systems, the major disease patterns, the major diagnostic terms, the five elements, and the basic color and numerical characters. Upon completion of this course, the student will be able to recognize, pronounce, and write Pinyin translations for the basic Chinese medical concepts and terminologies.

LEARNING OBJECTIVES

Upon completion of the class, the successfully student will be able to recognize the anatomical names of the organ systems and medical terminology according to TCM.
