

COURSE DESCRIPTION

The first of four courses in Chinese Internal Medicine. These classes present an overview of the pathology, diagnosis, etiology, and treatment of specific syndromes of the internal organ systems. Students will learn to identify specific patterns and symptoms associated with the pathologies, along with the treatment protocols and recommendations for treatment utilizing acupuncture, herbal medicine, and other TCM modalities. Chinese Internal Medicine I covers the main lower Jiao (lower abdomen) pathologies, including but not limited to, gynecological and urological issues, UTI, and lower back pain.

LEARNING OBJECTIVES

Upon completion of this course, a successful student will be able to identify the symptoms associated with specific lower jiao syndromes, and to identify the pathology, diagnosis and treatment plan.
